The challenge – a quote from our founder

Managers at all levels tell us that it is too hard and too time consuming to get all the information they need, when they need it, and in the format they need.

We have spent the last 45 years perfecting our unique solution to this problem.

What can Cyberquery do for you?

- Increase income from existing customers and make your application more attractive to new customers
- Empower your customers to produce accurate, consistent, fast, high quality and timely financial reports
- Enable your customers to create high quality, ad-hoc reports, and dashboards

Production line KPI Dashboard

"With Cyberquery, our people can make informed decisions immediately."
James Green – IT Analyst / Developer

Approaches to Financial Reporting

- Spreadsheets
 - Concerns over accuracy
 - Consistency concerns
 - Advanced spreadsheet skills required
 - Manual processes
 - Hard to maintain and correct errors
- Finance System Reporting
 - Limited features
 - Basic presentation
 - Poor performance
 - Moving target

Approaches to Financial Reporting

- Report Writer
 - Designed for operational reporting
 - Often requires external assistance

FRW Features

- Database and Environment Independent – Multiple Data Sources
- Finance System Independent
- Multi-Site
- Multi-Unit Code
- Multi-Currency
- Built-in drilldown

FRW Features (cont)

- Report Packs
- Secure Dedicated Report and Pack Viewer
- Interactive Report Design Environment
- Fully integrated with Cyberquery

FRW Benefits

- Put Financial Reporting back in the hands of Finance
- Elimination of errors and inconsistencies
- Faster period close down
- Free up time for analysis
- More timely reports

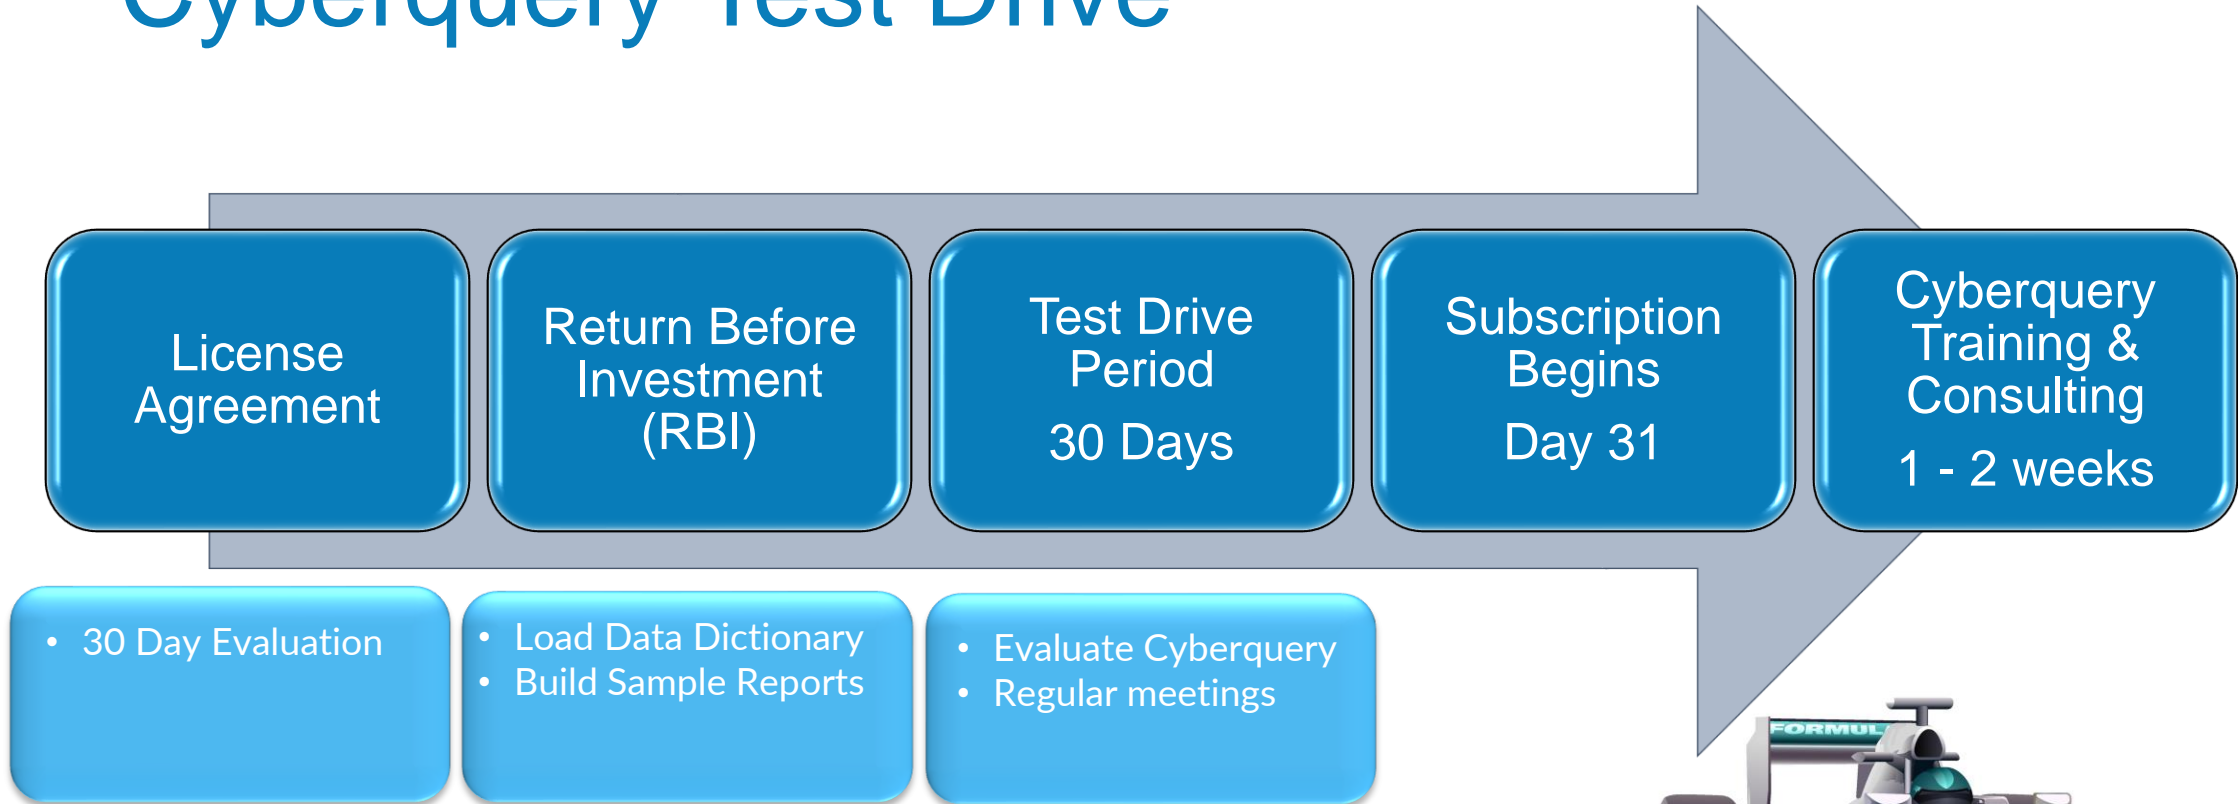

Finance Manager, Maximus:

“With Financial Report Writer my team is able to create, maintain and deploy accurate and timely financial reports to management in less time and with fewer headaches than before.”

Demo

- We demonstrated Financial Report Writer – overviewing its key benefits.
- We then looked at Cyberquery – the reporting and BI solution and looked at selected functionality.
- For further information please contact sjo@cyberscience.com.

Cyberquery Test Drive

We install the software, configure the reporting environment, implement key reports and help you evaluate the solution.
